

KUSP APPENDIX 1

The University of Kansas - Lawrence Campus Health & Safety Policy

It is the policy of the University of Kansas-Lawrence to conduct all educational, research and campus activities safely and in a manner that protects the health of employees, students, and the public.

Each administrator is committed to the enforcement of the health and safety policies of the University and to promulgating appropriate safety practices within his or her area of responsibility.

All faculty members and others involved in instructional and/or research programs are responsible for seeing that the students in their courses and laboratories are properly trained and educated about applicable safety and health policies and practices prior to exposure to instructional or research hazards.

Each employee and student is entitled to have access to information about the University's health and safety policies and practices and is responsible for knowing and adhering to health and safety policies and practices as they are applicable to the instruction, research and work settings in which he or she participates.

Each employee is responsible for maintaining a safe work place. Employees have a continuing responsibility to develop and follow practices that achieve these goal.

Each employee who manages or supervises the work of others is additionally responsible for seeing that employees and students for whom they are responsible are properly trained and educated about safety and health practices.

Each guest of the University is expected to adhere to the health and safety policies of the University while on campus.

All University-related facilities, activities, and programs shall be designed, conducted, and operated in a manner which reasonably protects human health and safety. Adherence to these principles is necessary in order for the University to achieve its mission of providing quality instruction, research, and services.

The University strives to provide training and education conducive to the establishment and maintenance of safe educational, research and work environments.
